OUR VALUES:

Our values based on our management principles:

- 1- Committing to client satisfaction as our most important business objective.
- 2- Recognizing our achievements as the work of the people who comprise LGI. We encourage initiative, recognize individual contribution, treat each person with respect and fairness.
- 3- Maintaining the highest standards of professionalism and technical competence.
- 4- Maintaining the highest standards of ethics and business conduct and operating at all times within the laws of the countries in which we do business.
- 5- Identifying and responding aggressively to new opportunities, and committing to success in each undertaking.

Our mission is to use extensive experience for delivering tangible business results and enabling our clients to get profit. We strive to build long-term client relationships based on mutual trust and respect.

Our vision is to bring new concepts in the field of manufacturing & service industry to enhance the quality of projects in India.

SEWERAGE PROJECTS:

- **LGI PIPES** HDPE potable water pipe designed for use in the municipal and industrial markets provides a monolithic, corrosion and leak free piping system for transporting potable water and other fluids for industrial applications.
HDPE pipe is an excellent choice due to its proven track record of providing longevity and reliability in fluid piping systems.
With multiple manufacturing locations and a vast distributor network, the end user is assured of receiving superior products combined with maximum service.
- The pipe LGI supplies to these markets is quickly being adopted as the better performing material of choice due to its improved properties compared to conventional piping materials like PVC or ductile iron. LGI services this important market because HDPE pipe provides a leak free reliable water system that protects our precious water resources, especially in those arid regions where water is scarce.

For Sewerage Pipes - IS :14333 : 1996

APPLICATION :-

ENVIRONMENTAL PROTECTION :-

HDPE pipes are also used for industrial waste treatment plants and water treatment plants. for drainage of sewerage. for disposal of sand slurry in dredging operations.

Sewer Pipe Systems are highly resistant to corrosive substances and therefore ideal for piping municipal wastewater.

Sewerage Pipe Systems are widely utilized for sewers as well as bridge, road or tunnel drainage.

The pipes are joined either by click ring type fittings or by butt welding, thus absolutely watertight. These pipes are most advantageous for undulating terrains.

PRODUCT RANGE :-

Sewerage pipes are also available in 63 mm to 710mm diameter, and PN 2.5 to PN10 pressures class.

These pipes are manufactured as per IS 14333:1996 and are available in 6 meter length.

For HDPE Pipes & Coils - IS :4984 : 1995

APPLICATION :-

WATER SUPPLY SYSTEM :-

In water supply distribution systems.
for section & delivery line of jet pumps & centrifugal pumps.
As a replacement of G.I. Pipes in Bore well application of submersible pumps.

INDUSTRIAL APPLICATION :-

HDPE pipes can be used for disposal of Corrosive effluents chemicals and treated laundrette wastes. Acids and Alkalis can be transported through these piper.
For conveying edible oils, fruits pulps, juices, milk and other food products. As duets for Air conditioning and ventilation .

HYDRO TRANSPORT SYSTEMS

Diffusers, outfalls and dredging applications.
AIDPE Pipes are used for transporting slurries of iron dre fly ash etc.

PRODUCT RANGE :-

HDPE Pipes are available in 32 mm to 710 mm diameter and PN 2.5 to PN 10.0. Length or pipe is per requirement.

LGI HDPE PIPE IS : 4984-1995

LGI HDPE PIPE IS : 4984-1995

LGI HDPE PIPE IS : 4984-1995

LGI HDPE PIPE IS : 4984

For Sprinkler pipe - IS :14151 (PT-2) 2008

APPLICATION :-

- ✓ Safety of crops & reduction of soil erosion
- ✓ Efficient use of water & fertilizers in Irrigation for variety of crops like cotton, wheat, gram, pulse etc.
- ✓ Checking of dust, pollution in cement industries and meaning pits.

SALIENT FEATURES

- ✓ Easy Installation
- ✓ Strong & Durable
- ✓ Leak Proof
- ✓ Water Saving
- ✓ Long lasting & Maintenance free.
- ✓ Energy Saving
- ✓ Light weight & Flexible
- ✓ Inert to chemicals, corrosion & Environmental stress

FITTING & ACCESSORIES

- ✓ PCN
- ✓ Foot Button
- ✓ Coupled Bend
- ✓ Coupled Tee
- ✓ End Cap
- ✓ Nozzle
- ✓ Riser Pipe
- ✓ Adoptor
- ✓ Clamp
- ✓ Rubbering

OTHERS

- ✓ Land decor & beautification
- ✓ Fish rearing
- ✓ Play ground grass fields and golf course maintenance.

PRODUCT RANGE :-

Q.C PE Pipe are available in Size 63 TO 110 MM Diameter. and class - 1 and 2

Quality Assurance :

LG Irrigation is an ISO 9001:2008 certified company, equipped with an in-house ultra modern testing facility. Stringent Quality Assurance at all levels right from the incoming raw material to the finished product, has helped in maintain the highest standards of qualitative products and customer satisfaction. We have various BIS licenses such as
IS 14151(Part-I) : 1999
IS 14151(Part-2) : 2008
IS 4984 : 1995
IS 14333 : 1996

Major Test Performed at LG Irrigation Quality Assurance Lab

- Visual inspection and dimension test
- Tensile Test
- Melt Flow Index Test
- Density Test
- Reversion Test
- Hydraulic Pressure Test
- (CBC) Carbon Black Content
- (CBD) Carbon Black Dispersion

Quality Assurance Lab

In LGI we put our sincere and consistent efforts in offering best solution to our clients. We possess an uncompromising attitude towards quality with the help of our team of quality controllers. Our range is subjected to stringent quality checks throughout the production process like, checking the raw material up till the final product to ensure their zero defect quality.

Quality Certification:

LGI is a ISO 9008:2001 certified company

We are committed to provide world-class customer satisfaction through excellence in processes.

Our approach to quality is aimed at: Improving quality of service

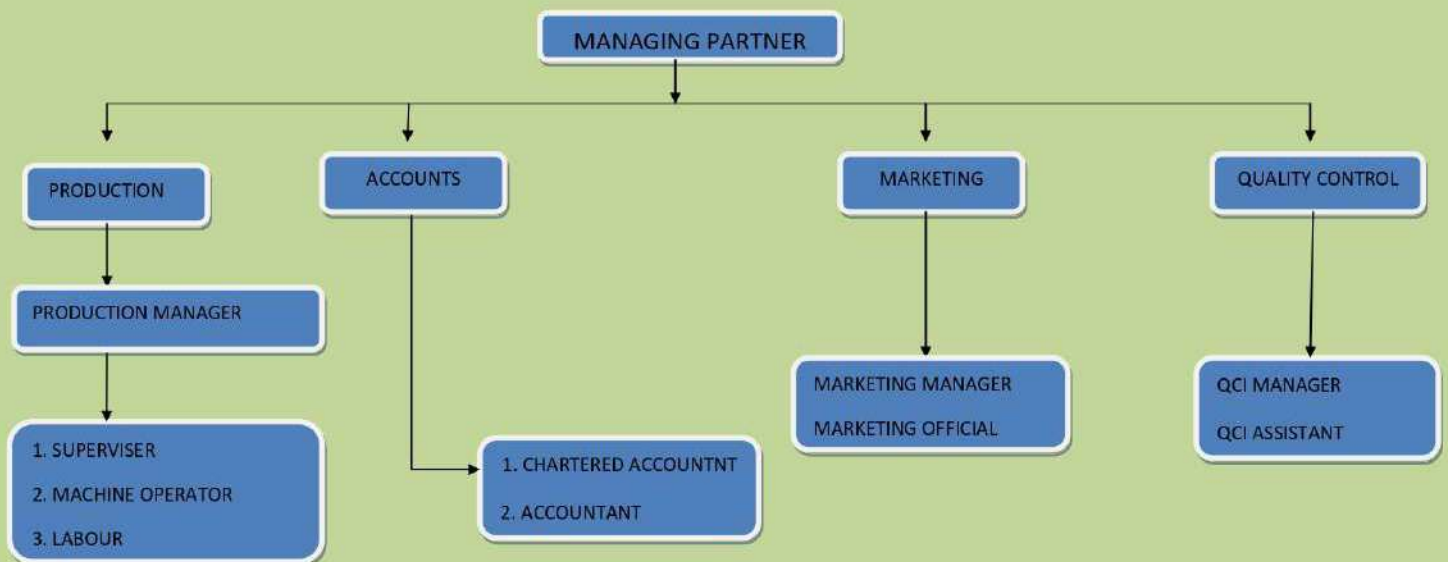

- Increasing customer satisfaction
 - Improving processes
 - Increasing employee satisfaction
-
- Backed by a skilled team, which is our greatest resource, we are able to deliver outstanding work results to our clients. We have extensive experience & expertise in all aspects of designing, developing and manufacturing HDPE Pipe, compression fittings, well equipped to deliver all type of Sewerage Projects, Water projects.
Our team : Executives, Project engineers, sales managers, skilled manpower.

KEY CUSTOMER LIST:

- 1- L & T Constructions
- 2- Contractors of UPJN
- 3- Contractors of PuVVNL
- 4- DVVNL
- 5- Contractors of UPJN
- 6- JJM, RAJASTHAN
- 7- Delhi Jal Board
- 8- PHED in various states.

ORGANIZATION CHART

FAST FUSION's Trac a new Technological Advancement for pipe fusion Machines. Fast Fusion, Specializes in the Manufacturing Polyethylene Pipe Fusion Machine. The Fast Fusion Machine Incorporates an Enhanced Cooling System that has Dramatically Increased the Production Capacity and the Number of Fusion welds Produced per hour over any other Machine offered in the Industry.
